EDUCATION

CETYS University

Bachelor's Degree in Software Engineering

Graduated: June 2025

GPA 88.67/100

WORK EXPERIENCE

Sistemas y maquilados internacionales S.A de C.V

Tecate, Baja California, México

Software Engineering Intern

January 2025

- Designed and implemented a web application to optimize requisition management.
- Allowed users to create requests, manage approvals, and review request history.
- Worked with Flask, Bootstrap, and MySQL.

MAJOR PROJECTS

Magic Menu

May 2024 – June 2024

Mobile application that allows users to order food while watching a video of the preparation process of the selected item.

- Developed the front-end using Android Studio.
- Applied Agile Scrum methodology during the project.
- Developed the back-end using Java.

Santo Thomas

April 2025– June 2025

Mobile application for managing 5S audits, allowing companies to create and manage organizations, departments, and customized questionnaires.

- Developed the front-end using Android Studio.
- Integrated MySQL database for data management.

Web Requisition System

September 2024–
January 2025

Web-based requisition system to register requests and view user request history.

- Developed the front-end using HTML, CSS, and Bootstrap.
- Developed the back-end using Flask.
- Used MySQL for database management.

Engineering Expo Website

March 2023 – May
2023

Website developed for the Engineering Expo, allowing students and judges to view events during a project week.

- Collaborated in a team project using React, Tailwind CSS, and Django.
 - Used MySQL as the database.
-

SKILLS

PROGRAMMING LANGUAGES

Proficient: Python, JavaScript
Familiar: C#, Java

TECHNOLOGIES

HTML, CSS, JavaScript, Git, GitHub, Node.js, MySQL, MongoDB, React.js, VS Code, Tailwind, Android Studio, JUnit, Flask, Bootstrap.

WEB TECHNOLOGIES

Proficient: HTML, CSS
Familiar: Tailwind CSS, Node.js
Basic: React

TRAINING AND WORKSHOPS

Insulet — February 2025

- Introduction to Java fundamentals and basic object-oriented programming concepts.
- Development of practical exercises and hands-on activities during the training.

Coursera — October 2024

- Creating Dashboards and Storytelling with Tableau .

DATABASES

Familiar: MySQL

SOFTWARE TESTING

Basic: Software testing concepts
